

## Invalids' Hotel and Surgical Institute

Staff of Eighteen Experienced and Skillful Physicians and Surgeons.

ALL CHRONIC DISEASES A SPECIALTY.—Patients treated here or at their homes. Many treated at home, through correspondence, as successfully as if here in person. Come and see us, or send ten cents in stamps for our "Invalids' Guide-Book," which gives all particulars. Address: **Invalids' Hotel and Surgical Institute**, 653 Main St., Buffalo, N. Y.

For "worn-out," "run-down," debilitated school teachers, milliners, seamstresses, housekeepers, and overworked women generally, Dr. Pierce's Favorite Prescription is the best of all restorative tonics. It is a "Cure-all," but admirably fulfills a singleness of purpose, being a most potent specific for all those Chronic Weaknesses and Diseases peculiar to women. The treatment of many thousands of such cases, at the Invalids' Hotel and Surgical Institute has afforded a large experience and in adapting remedies for their cure, and

### Dr. Pierce's Favorite Prescription

is the result of this vast experience. For internal congestion, inflammation and ulceration, it is a specific. It is a powerful general, as well as uterine, tonic and nerve, and imparts vigor and strength to the whole system. It cures weakness of stomach, indigestion, bloating, weak back, nervous prostration, exhaustion, debility and sleeplessness in either sex. Favorite Prescription is sold by druggists under our positive guarantee. See wrapper around bottle.

**PRICE \$1.00, OR SIX BOTTLES FOR \$5.00.**

Send 10 cents in stamps for Dr. Pierce's large "Treatise on Diseases of Women" (100 pages, paper-covered). Address, **WORLD'S DISPENSARY MEDICAL ASSOCIATION**, 653 Main Street, Buffalo, N. Y.

### Dr. Pierce's Little Liver Pills

ANTI-BILIOUS and CATHARTIC.

**SICK HEADACHE,** Bilious Headache, Dizziness, Constipation, Indigestion, and Bilious Attacks, promptly cured by Dr. Pierce's Pleasant Purgative Pills, 25 cents a box, by Druggists.

#### Greenwood Items.

Last Friday nearly a continuous line of wagons loaded with loose tobacco came in from the South Side, and passed down Greenwood Avenue en route for the various tobacco establishments in the city. An average of five loads per day have been brought in since.

The good people out this way still think they live on "Greenwood Avenue," notwithstanding the Tobacco Leaf gives it the very elegant title of "Lick Skillet." We have known editors to "get licked" for less offence than that.

Turnip salad, with hog jowl and poached eggs, interspersed with cornmeal dumplings, makes a dish "good enough for a king." It is however, a scarce commodity, and the price ranges rather high for a person to indulge in many dishes of this healthy garden truck. Hope the supply will be increased with a corresponding decrease in price very soon.

Miss Sumner Campbell has been quite sick for the past ten days. We hope she will soon regain her usual good health.

Miss Sallie Williams who has been on a visit to her sister, Mrs. R. E. McCulloch, since last November, started on the way to her home in Henderson county, Ky., last Saturday. Miss Sallie was the recipient of many kind attentions from her numerous friends and admirers while here, and she informed us, just prior to leaving, that this had been the most enjoyable visit she had ever made to our city. May her future always be as bright as the present proves to be.

We are sorry to note that Mrs. Lane's health is not good at the present writing. We trust she may soon regain her accustomed sprightliness and cheerfulness, which she shows so largely when in health.

Mr. John Phipps, a worthy, energetic young neighbor, has bought an interest in the grocery store of B. Mac, Neblett on Greenwood. We wish Mac and John great success. The style of the new firm in Neblett & Phipps.

Mr. W. O. McReynolds, of whom we have made repeated mention, died last Monday evening, at the advanced age of 87 years. Mr. McReynolds was the oldest citizen of Clarksville, doubtless having been a resident for 65 years—this, however, is conjecture on our part, as we have no definite date to govern us. We knew him for 52 years. He led an industrious, honorable life, and in all those years no breath of calumny ever rested upon his good name. He leaves a wife and two grand-children to inherit his estate—he having lived to bury all of his children. Some competent person will, no doubt, gather up the facts of his long and useful life and give him the extended notice his memory so richly deserves.

The new catalogue of "Southern Plants for Southern Homes," which has just been issued from your office for Capt. J. J. Crisman's Evergreen Lodge, is hailed with delight by lovers of flowers on Greenwood. Its

fifty-seven pages elegantly illustrated and neatly printed reading matter will repay perusal by all lovers of the beautiful. Mr. Crisman displays his usual good taste and enterprise in having his printing done at home. It is equal to the best work done in the best offices in the land.

Miss Sallie Gould, daughter of Rev. J. H. Gould, of Arkansas, has been the guest of Mr. Sterling Neblett this week. Miss Sallie came back on a visit with her father last October, and remained to make a general visit to the many relatives and friends of the family in this county.

Considering the inclement weather, quite a crowd of young ladies and gentlemen enjoyed a Valentine party at the residence of Mr. P. Gerhart last Monday evening. Miss Sallie Gould, of Ark., and Miss Nannie Campbell, of Rock Castle, Ky., were among the guests.

Miss Cora Caldwell has been sick this week, but we are glad to learn that she is much better, at this writing.

Mr. David Dick, the kind-hearted brother of Mrs. S. E. Ramsey, is boarding at her house on Greenwood, since the Dick family have removed from the old homestead on the Port Royal pike.

Miss Janie Broadus is expected home from Birmingham, Ala., this week.

J. S. Neblett left for Nashville last Wednesday, on the City of Clarksville, as a delegate to the State Temperance Alliance Convention. He is an active worker in the temperance cause—a cause which should enlist the earnest support of all, of every name and order.

We are glad to know that our Greenwood people are supplying some of the necessities of life to the Floyd family in South Clarksville, who recently moved here and all are now sick with measles. Any contribution left at Neblett & Phipps' grocery will be promptly delivered to this afflicted family. The very essence of religion is to minister to the necessities of the needy and afflicted.

We have repeatedly heard it said that women have no business going through the country making temperance speeches. It is the wife and mother who suffer most from the effects of intemperance, therefore, we think that they of all others should be heard.

EM. QUAD.

Russellville, Ky., Herald Enterprise: The Clarksville Chronicle is writing up the boom, commenced at a citizen's meeting, held in that city last week. We trust that all our neighbor's predictions may prove true.

Many thanks, friend Barclay, for your good wishes. The CHRONICLE editor is trying to do well his part in promoting the prosperity of our city and county, but we are not attempting to deceive or misrepresent. If you will be kind enough to read our article this week headed "Developed Facts," you will get at the facts in the case. Before the war the whole line of hill country along the South side of Cumberland river was lighted by the blaze of iron furnaces and rolling mills, and there is enough here there now to turn the same number for a hundred years. Our people have in some measure rebuilt their ruined homes, and in some instances accumulated a surplus, which they will now invest in rebuilding those furnaces. If men with money come from other states to join with us they will be welcome, but whether they come or not we are self-reliant and will work out our own salvation with the energy becoming freedom.

#### A Peaceful Church.

The church known as St. Paul, A. M. E. Zion church lives in peace and harmony with all denominations in the city. We wish to state that we earnestly solicit the aid and sympathy of the intelligence of Clarksville in our behalf in erecting a house of worship.

Any one who wishes to help a good and worthy cause may send it to Rev. H. W. Smith, Box 30. Benevolent contributors will please help us as soon as possible to build. Lumber, brick, shingles and nails will be taken.

No other spring medicine has won for itself such universal confidence as Ayer's Sarsaparilla. It is the most powerful combination of vegetable alternative ever offered to the public, and is acknowledged by the medical profession to be the best blood purifier.

C. C. JACKSON, son of Andrew Jackson of this city, left Clarksville Jan. 26th, having been here on a visit about two months. His home was in Kaufman, Texas, and had been for three years. Returning to Kaufman, he left there for Dallas, on February 6th with the intention of going into business there. He put up at the St. George Hotel, was taken sick with pneumonia on the 6th. After having been waited on by a physician up to the 9th, on the 10th, the physician could not gain admittance to his room the door being secured from within. On looking over the transom of the door the doctor discovered him sitting on the bed with pistol in his hand. Shooting his pistol off at the transom four times and the fifth shot took effect in his head killing him almost instantly.

## DEVELOPED FACTS.

### Proofs Conclusive, Challenging Investigation and Examination.

### Clarksville's Location and Past History All Prove the Present Boom is a Reality.

#### Old Hickory's Cannon Balls.

Yesterday we called on Capt. R. L. Cobb, Chief Engineer and Superintendent of the I. A. & T. railroad, and requested of him an article he had promised us in regard to the iron interest of Clarksville and vicinity.

He replied that he had been so busy that he had not time to prepare it, but hoped to be able to fulfill his promise soon. We asked him if he would answer a direct question of public interest, and he replied that he would. We then asked him what he thought of Clarksville and its vicinity as eligible points for the establishment of iron manufactures.

His reply was, "I can answer this question best by telling you what has been. Back in the 50's there was an organization in this city, occupying the house, now occupied by our worthy citizen, Mr. John Young, on the public square, then one of the handsomest buildings in the city, known as 'The Iron Men's Board of Trade,' to which belonged firms representing from 75 to 100 Charcoal Furnaces, several Forges, and two Rolling Mills, the latter two the manufactures of the celebrated Tennessee Boiler and Bar Iron.

Anthony Vanlee of Cumberland Furnace, John Stacker of Lafayette Furnace, Woods, Lewis & Co., of Cumberland Iron Works, Bear Spring, Dover, and Bellwood Furnaces, and Randolph Forge. They were successors to Woods, Stacker, & Co. Daniel Hillman & Bros. of Tennessee Rolling Mills, Furnaces and Forges, Cobb, Philips & Co., of Clark, LaGrange and Ellipse Furnaces, Jackson, McKernon & Co., Mt. Vernon, Louisiana and Tennessee Furnaces; J. D. West, Sailor's Rest Furnace; Robt. Steele of Yellow Creek Furnace, Louis Irwin & Co., Saline Furnace; DeGraffenreid & Co., of Mammoth Furnace and William Kelly & Co., of Eddyville Furnace. The William Kelly of this firm was the original inventor of the process of making what is now generally known as Bessemer steel. I could extend this list of members if necessary. Suffice it to say a prophecy made by my grandfather to my father, when a youth, telling him that he would live to see the day, when traveling from the mouth of Cumberland river nearly to Nashville, that the lights from furnace stacks could be seen from one to another along the whole distance was afterwards almost literally fulfilled.

The works of the parties heretofore named, or their successors, with others that I could mention, were in successful operation up to the day when the fires of sectional jealousy lighted the torch of war and the prosperity of our iron industries went down with the fall of Fort Donelson—the first sacrifice being the Cumberland Rolling Mills of Woods, Lewis & Co., which were burned by the Federal authorities immediately after the surrender of the Fort. At this place was manufactured the justly celebrated Boiler and Bar iron which at that day had never been surpassed in quality and I believe has never been equaled since that time by any iron ever manufactured in the United States. I desire here to pay to Col. G. T. Lewis of this firm the tribute justly due him by saying that he was the one man, more than all others to whom the South is indebted for the successful development of the now large iron interests in the South.

The ore beds, the coal grounds, the lime rock, the Furnace, Forges and Mill sites exist as they did then—presenting to intelligence, capital and energy a rich reward as can be reaped in any other region or locality—either in the old South or the "New." Now our people have decided by the organization of a Land and Improvement Company to inform the world of Clarksville, her location, advantages and resources—confining themselves in their representations to nothing but the truth, stating nothing that cannot be verified by honest and competent examination and investigation. Uniting with our people, whenever you think I can in any manner aid the re-estabishment of our torch-lights from furnace stacks that must be built in and around Clarksville you will find me ready to contribute my mite.

The old Lafayette Furnace, located in this county, made for the city of St. Louis her first water-pipes, and one of the Furnaces of this section furnished the solid shot for Old Hickory's cannon at the Battle of New Orleans in 1812. The large Sugar kettles for the

Louisiana plantations and almost the entire world were made by Furnaces in this region before the war. For these and many other reasons these furnaces should be rebuilt and their valuable products will furnish increased wages to labor, attract the investment of capital and contribute largely to the general prosperity of our people. It was my privilege and delight, when a lad, to be a "skimmer" at LaGrange Furnace when "castings" were being made. To show you that I have not forgotten my promise I now select from my desk from several analyses of ore tributary to Clarksville and vicinity and hand you one for publication. The following is the analysis:

Analysis of ore from Steel Ore Banks, Montgomery county, Tennessee, by Otto Worth, and remarks.

In 100 Parts—	
Water.....	10.51
Silice Acid.....	3.33
Per Oxide of Iron.....	82.25
Alumina.....	2.03
Lime.....	0.31
Magnesia.....	0.22
Manganese.....	0.05
Phosphoric Acid.....	0.40
Organic Matter.....	0.24
	100.00

"As you see from the analysis an extremely fine brown Hematite ore. With the exception of the so called Pipe ore, from which Lyon Shobe & Co., make their celebrated Sligo Boiler iron, I have not met with a better ore of that class. It will not need calcining before being used in the furnace, and less than two tons will produce a ton of pig iron.

## Clarksville Tobacco Market.

CLARKSVILLE, TENN., Feb. 17, 1887.

Business was fairly lively at the Tobacco Board this week, with offerings of nearly 300 hhds., and sales of about 200 hhds. We note no change in prices on the whole, though some sorts seemed easier in tone. Receipts are increasing and sales will soon be large. The loose tobacco market seems ending off under a less active demand from the factories. We quote:

Common Leaf.....	\$2.00 to 3.00
Medium Leaf.....	2.25 to 3.50
Good Leaf.....	2.75 to 4.25
Common Leaf.....	3.50 to 5.50
Good Leaf.....	4.00 to 8.00
Good Leaf.....	8.50 to 9.50
Choice Selections.....	10.00 to 12.00

#### Grange Warehouse.

HERNDON, HALLUMS & Co., of the Grange Warehouse sold for the week ending February 17, 1887, 141 hogsheads as follows:

76 Hogsheads New Leaf.	
9 00, 8 00, 7 70, 7 10, 6 80, 6 75, 6 50	
6 50, 6 50, 6 50, 6 50, 6 50, 6 50, 6 50	
6 50, 6 50, 6 50, 6 50, 6 50, 6 50, 6 50	
6 50, 6 50, 6 50, 6 50, 6 50, 6 50, 6 50	
4 00, 4 00, 4 00, 4 00, 4 00, 4 00, 4 00	
5 40, 4 50, 4 50, 4 50, 4 50, 4 50, 4 50	
5 00, 4 50, 4 50, 4 50, 4 50, 4 50, 4 50	
5 50, 6 00, 5 40, 4 40, 4 70, 3 10, 4 00, 2 50	
6 00, 2 50, 3 20, 3 25, 5 20, 5 00, 4 00, 3 00	
5 10, 3 00, 4 00, 6 30, 8 25.	

25 Hogsheads New Leaf.	
3 40, 2 85, 2 00, 2 00, 2 00, 2 00, 1 60, 2 00	
1 80, 1 80, 1 50, 1 00, 2 20, 2 00, 1 50, 1 30	
2 00, 2 00, 2 00, 2 00, 2 50, 2 50, 2 50, 2 50	
2 70.	

17 Hogsheads Old Leaf.	
5 05, 5 70, 4 00, 4 95, 3 30, 3 30, 3 30, 2 25	
4 30, 4 95, 4 25, 5 70, 4 95, 3 50, 3 80, 3 25	
3 25.	

23 Hogsheads Old Leaf.	
2 90, 2 90, 2 10, 3 25, 1 50, 1 50, 3 00, 3 10	
1 80, 1 80, 2 30, 2 30, 2 30, 2 30, 2 30, 2 30	
2 20, 2 50, 2 50, 2 50, 2 50, 2 70, 2 10.	

#### People's Warehouse.

HANCOCK, FRASER & RAGSDALE, of the People's Warehouse, sold for the week ending February 17, 1887, 25 hogsheads as follows:

14 Hds. Good and Common Leaf.	
8 00, 7 50, 7 40, 7 00, 6 40, 5 95, 5 95, 5 20	
4 80, 4 40, 4 40, 3 50, 3 60, 3 40.	
11 Hds. Medium and Common Leaf:	
3 20, 3 50, 3 00, 2 50, 2 50, 2 50, 2 70, 1 75	
1 50, 1 50, 1 50.	

#### Central Warehouse.

KENDRICK, PETTUS & Co., of the Central Warehouse, sold for the week ending February 17, 1887, 129 hogsheads, as follows:

Leaf, 11 75 to 3 50.	
Leaf, 3 25 to 1 50.	

#### Bailey Warehouse.

SHEELY & RUDOLPH, of the Bailey Warehouse, sold for the week ending February 17, 1887, 21 hogsheads, as follows:

14 Hds. New Leaf:	
6 00, 5 90, 5 80, 5 70, 5 10, 5 50, 4 95, 4 30	
4 50, 4 00, 4 40, 4 80, 4 40, 4 70.	
6 Hds. Old Leaf:	
4 75, 4 75, 4 10, 4 10, 3 20, 3 20.	
1 Hhd. Old Leaf:	
1 25.	

The aged and venerable W. O. McReynolds of this county, died at his home on the Edmondson Ferry road on Monday the 14th inst. The burial was in Greenwood Cemetery. Funeral services by Rev. J. W. Hill. The deceased was the father of Dr. J. O. McReynolds of Elkton, Ky.

OFFICERS elect of the Hook and Ladder Company for the ensuing year: W. T. Averitt, Captain; J. M. Stuart, 1st Ladder Director; Fred Naylor, 2nd Ladder Director; Dick Lyons Hook Director; W. B. Kincannon, Bucket Director.

CHARLES BRYAN KENDRICK, twelve years of age, son of J. C. Kendrick, died at his home in this city Thursday morning at 3 o'clock. About four weeks ago he accidentally shot himself through the foot, and though apparently improving, Tetanus could not be prevented and death was the result. Our entire community deeply sympathize with the bereaved parents. Mourning friends attended the burial yesterday in Greenwood Cemetery where the solemn services were performed by Dr. J. W. Lupton.

THE Knights of Labor Grand March by J. Y. M. is a brand new composition in which we take much pleasure in recommending. It has a sweet and pretty melody from beginning to end and is decidedly one of the most elegant Marches we have seen for many a day. Price 40 cents. Sent 50 cts. Ing. Fischer, publisher, Toledo, O.

## WORSE THAN SMALL-POX.

A Great Danger Which Menaces an Unsuspecting Public.

The Brompton Hospital for consumptives, in London, reports that over fifty people out of one hundred consumptives are victims of constipated or inactive kidneys.

Consumption is one of our national diseases, and the above report goes to prove what has often been said in our columns during the last eight years, that kidney troubles are not only the cause of more than half of the cases of consumption, but of ninety out of every hundred other common diseases. They who have taken this position, made their claims after elaborate investigation, and their proof that they have discovered a specific for the terrible and stealthy kidney diseases, which have become so prevalent among us, is wise and convincing.

We have recently received from them a fresh supply of their wonderful advertising. They have challenged the medical profession and science to investigate. They have investigated, and those who are frank have admitted the truth of their statements. They claim that ninety per cent. of diseases come originally from inactive kidneys and allow the blood to become filled with uric acid poison; that this uric acid poison in the blood carries disease through every organ.

There is enough uric acid developed in the system within twenty-four hours to kill half a dozen men.

This being a scientific fact, it requires only ordinary wisdom to see the effect inactive kidneys must have upon the system.

If this poison is not removed, it ruins every organ. If the bowels, stomach or liver become inactive, we know it at once, but other organs help them out. If the kidneys become constipated and dormant, the warning comes later on, and often when it is too late, because the effects are remote from the kidneys and these organs are not suspected to be out of order.

Organs that are weak and diseased are unable to resist the attacks of this poison, and the disease often takes the form of and is treated as a local affliction, when in reality the real cause of the trouble was inactive kidneys. Too many medical men of the present day hold what was a fact twenty years ago, that kidney disease is incurable, according to the medicines authorized by their code. Hence, they ignore the original cause of disease itself, and give their attention to useless treating of local effects.

They dose the patient with quinine, morphine, or with salts and other phyls, hoping that thus nature may cure the disease, while the kidneys continue to waste away with inflammation, ulceration and decay, and the victim eventually perishes.

The same quantity of blood that passes through the heart, passes through the kidneys. If the kidneys are diseased, the blood soaks up this disease and takes it all through the system. Hence it is, that the claim is made that Warner's safe cure, the only known specific for kidney diseases, cures 90 per cent. of the human ailments, because it, and it alone, is able to maintain the natural activity of the kidneys, and to neutralize and remove the uric acid, or kidney poison, as fast as it is formed.

If this acid is not removed, there is inactivity of the kidneys, and there will be produced in the system paralysis, apoplexy, dyspepsia, consumption, heart disease, head-aches, rheumatism, pneumonia, impotency, and all the nameless diseases of delicate women. If the poisonous matter is separated from the blood, as fast as it is formed, these diseases, in a majority of cases would not exist.

It only requires a particle of small-pox virus to produce that vile disease, and the poisonous matter from the kidneys, passing all through the system and becoming lodged at different weak points, is equally destructive, although more disguised.

If it were possible for us to see into the kidneys, and how quickly the blood, passing through them goes to the heart and lungs and other parts of the system, carrying this deadly virus with it, all would believe without hesitation what has so often been stated in advertisements in these columns, that the kidneys are the most important organs in the body.

They may regard this article an advertisement and refuse to believe it, but that is a matter over which we have no control. Careful investigation and science itself are proving beyond a doubt that this organ is, in fact, more important than any other in the system as a health regulator, and as such should be closely watched, for the least sign of disordered action.

MR. JAMES DAVIS, of South Clarksville, died on the 5th instant of pneumonia, aged about 52 years. Mr. Davis was a brick mason, one of the best mechanics in the city. He was proprietor of Red river brick yard, was a good man, an industrious and useful citizen. He leaves a large dependent family. His funeral service was held at the Cumberland Presbyterian church by Rev. Mr. Brigham.

We invite attention to the interview with Capt. Cobb in this paper. His father was a gentleman of superior education, and was for many years engaged in the manufacture of iron. Capt. Cobb has been familiar from the days of his childhood with the working of iron ore, and his judgment is of great value on this and kindred subjects. Any individual or firm in distant States can rely implicitly upon his statements as given in the interview.

As a toilet article, Ayer's Hair Vigor stands unrivaled. It cleanses the scalp and removes dandruff, cures itching humors, restores the original color to faded and gray hair, and promotes its growth.

See advertisement of Pecan tree in this paper.

## Obituary.

W. P. Hume, an old and respected citizen of this city, died at his home on Wednesday, 16th instant, in the 70th year of his age. The cause of his death was old age and exhaustion. Mr. Hume was born in Nashville and was when a young man clerk in the Planter's Bank in that place, and was sent here as cashier of the branch of that bank which was established in Clarksville in 1842, which position he filled as long as the branch was in existence.

Afterwards he served 15 years as cashier of the First National bank. He was City Treasurer for forty years—with the exception of only one term. He was the last surviving charter member of the lodge of Odd Fellows established in this city forty years ago. He was twice married, his first was Miss Garvin, and Mr. Stewart Hume of this city is a grandson. His second wife, who survives him, was Miss Augusta Tinsley to who he was married fifteen years ago. He was a consistent member of the Presbyterian church. The funeral service was performed Friday by Rev. Dr. Lupton, and the remains were followed by a large number of mourning friends to the burial place in the city cemetery.

REPRESENTATIVE B. J. Corban, on the 16th, introduced a bill: To authorize the city of Clarksville to transfer the old Red river bridge to the county of Montgomery.

THE Temperance Alliance assembled, according to programme, in Nashville Thursday, several Clarksville delegates being in their midst. They have organized their forces by companies, regiments, brigades and divisions, and they expect to route General Barleycorn, horse, foot and dragoons, when comes "the mild September."

#### To Farmers.

Who have sold their crops of tobacco to me, I desire to say that every contract I hold specifies that the tobacco is to be delivered in sound and keeping condition. I am getting too much tobacco that is in unsafe condition, and must request my farming friends to order their tobacco properly, as my hanging-room is nearly full. I gain nothing by docking, and neither you nor I like that process. Your contract also expressly excludes all frosted, so please do not mix any frosted tobacco in mine, as I am not dealing in tobacco of that description.

Yours very truly,

S. F. BEAUMONT.

THAT jug passenger who "double quicked" down the wharf to get aboard the City of Clarksville with the prohibition crusaders was only carrying fish bait to Shelton's Landing.

We regret to hear that Mr. Granville Jordan, near Guthrie, lost his house by fire this week. Mr. R. N. Adams, near Pinchem, also lost some tenant houses.

#### Jole and Sallad.

Hog Jole, Turnip Sallad and poached eggs go in to make up a good dinner, all can be secured at

KESSEE & NORTHINGTON.

THE Mme. Octavia Hensel Concert Company, of Nashville will entertain the good people of Clarksville, at the Opera House, Thursday night, 24th instant. Mr. J. B. Burdett is manager and the Company is composed of the finest local talent of Nashville. A rare entertainment is offered in the following programme:

#### PART ONE.

Ojos Criollos.....Gottschalk  
Mme. Hensel and Mr. Coyle.  
My Pretty Maid.....Mr. Burdett.  
Mr. Burdett, Miss Geary, Mme. Hensel and Mr. Herberich.  
Vocal Solo—'In One of the Tickle Kind'  
Scena de Ballet.....De Beriot  
Violin—Miss Geary  
Piano—Mr. Coyle.

Recitation—Sandolph.....Longtellow  
Mme. Octavia Hensel.  
Duet—Violin and guitar. Miss Geary and Mr. Burdett.

#### PART SECOND.
